EDUCATION

B.Tech, Computer Science and Engineering

2019 - 2023

St.Joseph's College of Engineering and Technology, Palai

WORK EXPERIENCE

Associate Software Engineer · Tata Consultancy Services

Kochi · Jan 2024 – April 2025

Worked on Exelon's Management Model website, developing Power Automate workflows, implementing new process flows, and providing ongoing technical support and website maintenance.

IEEE — Designer

2019 - 2021

Designed visual assets and communication materials for IEEE initiatives, events, and activities, maintaining consistency across different formats and audiences.

SELECTED PROJECTS

Tink App · Product Design

- Designed an AI thinking partner around the principle of strengthening thinking rather than outsourcing it, translating concerns around cognitive offloading into product behavior and interaction constraints
- Explored interaction models for Think With Me and Quick Help, balancing guided reasoning, direct assistance, user agency, and cognitive engagement across different contexts

Aeroplane Mode · Behavioral UX · System Awareness

- Investigated how subtle system feedback around Aeroplane Mode can lead to missed connections, translating user research into a more visible and contextual awareness system
- Designed a layered feedback intervention across Quick Settings and the lock screen, balancing system visibility with minimal disruption to the user's flow

SKILLS

Core Skills: Interaction Design · User Research · Behavioral UX · User Flows · Wireframing · Prototyping · Information Architecture · Usability Testing · Visual Design · Design Systems · Systems Thinking

Tools: Figma, Adobe Photoshop, Claude Code, Procreate

Prototyping: High-Fidelity & Interactive Prototyping · Code-Based Prototyping
